

ESD Safe Preconfigured Storage and Transport Solutions

Preconfigured ESD Shelving Solutions

Super Erecta Platform: Utilizes the modularity and rigidity of Super Erecta while the open wire construction maximizes airflow, minimizes particulate accumulation, and provides a sanitary appearance with a chrome finish.

Adjustability: Shelving heights can be adjusted entire height of solution in 1" increments.

Conductivity: Through the use of chrome-plated steel and 9985-ESD polymer split sleeves, conductivity is maintained throughout the entire solution.

Mobility: Stationary and mobile solutions available. Mobile solutions further maintain conductivity with the ground via (1) ESD-DC12 drag chain, (2) 5MBESD brake casters, and (2) 5MESD swivel casters.

Storage Capacity: All preconfigured units include five shelving tiers.

Sizes Available: 24"(mm) x 36", 24" x 48", and 24" x 60"

Stationary

Mobile

ESD Preconfigured Shelving Solutions

ESD Preconfigured Shelving Solutions				Appx. Pack. Weight		Tiers	Post Material	Shelf Material	Style	Casters
Preconfigured Part No.	Dimension (in.) Length / Width / Height	Dimension (mm) Length / Width / Height		(lbs.)	(kg)					
ESD-2436NC-63-M-5	36 x 24 x 69	914 x 610 x 1753	79	35.9	5-Wire	Chrome	Chrome	Mobile	5MPBESD/5MPESD	
ESD-2436NC-74-S-5	36 x 24 x 74	914 x 610 x 1880	74	33.6	5-Wire	Chrome	Chrome	Stationary	N/A	
ESD-2448NC-63-M-5	48 x 24 x 69	1219 x 610 x 1753	93	42.3	5-Wire	Chrome	Chrome	Mobile	5MPBESD/5MPESD	
ESD-2448NC-74-S-5	48 x 24 x 74	1219 x 610 x 1880	89	40.5	5-Wire	Chrome	Chrome	Stationary	N/A	
ESD-2460NC-63-M-5	60 x 24 x 69	1524 x 610 x 1753	119	54.1	5-Wire	Chrome	Chrome	Mobile	5MPBESD/5MPESD	
ESD-2460NC-74-S-5	60 x 24 x 74	1524 x 610 x 1880	115	52.3	5-Wire	Chrome	Chrome	Stationary	N/A	

Preconfigured ESD Reel Shelving Solutions

Efficiency: Offers high-density storage and transports for standard-sized component reels used in the manufacturing of PCB boards.

Reel Sizes: 13" and 7" reels. Please inquire if your reel sizing deviates from these sizes before ordering to confirm fit.

Super Erecta Platform: Utilizes the same modular platform as regular ESD shelving to guarantee rigidity and allow countless custom configurations

Adjustability: Shelving heights can be adjusted entire height of solution in 1" increments

Conductivity: Through the use of BRITE and chrome-plated steel; along with 9985-ESD polymer split sleeves, conductivity is maintained throughout the entire solution.

Mobility: Stationary and mobile solutions available. Mobile solutions further maintain conductivity with the ground via (1) ESD-DC12 drag chain, (2) 5MBESD brake casters, and (2) 5MESD swivel casters

Storage Capacity: Total of 15 reel slots for 13" to 15" diameter reels per shelf – total of 78 reel slots per shelf for 7" diameter reels.

Sizes Available: 18" x 36"

Stationary

Mobile

Note: Refer to pg.2 for spec information on ESD Reel Shelving solutions

R1836BR-13	36 x 18 x 4.25	914 x 455 x 108	13-15	330-381	15	2	50	7.5	3.5

Preconfigured ESD Utility and FOU/SMIF Cart Solutions

Super Erecta Platform: Utilizes the same modular construction as our ESD shelving for maximum strength, rigidity, and optimal airflow through the solution to mitigate particulate collection.

Adjustability: Utility cart shelf heights can easily be adjusted in 1" increments.

Conductivity: through the use of chrome/stainless steel, 9985-ESD polymer split sleeves, (1) ESD-DC12 drag chain, (2) 5MPBESD brake casters, and (2) 5MESD swivel casters, conductivity is maintained throughout the solution with five points of contact with the ground for optimal protection of your ESD sensitive product.

Handles: One piece angled design on both front and rear of the solution.

Material and Sizes: 18" x 36" and 24" x 48" solutions are available in chrome. A 18" x 42" solution is available in stainless steel and size for FOU/ and SMIF transport.

Product Containment: all solutions have either a drop mat feature built into the shelving tiers or come with shelf ledges to provide additional product protection during transport.
